

PRESS RELEASE

February 9, 2010

FOR IMMEDIATE RELEASE

Protect Your Identity Online Workshop

Protect yourself against identity theft online. The internet has proven itself to be a very useful tool for many individuals, including criminals who have discovered ways to make modern technology their partner in crime. The security of your funds and your personal and financial information is very important, which is why Kern Schools Federal Credit Union (KSFCU) is hosting a complimentary workshop, *Protect Your Identity Online*. Guest speaker Scott Whitten of Carney's Business Technology Center will uncover the layers, vulnerabilities, and solutions to online identity theft. Whitten will teach how to recognize phishing attacks, how to protect against unwanted computer access, viruses, spyware, and the right hardware and settings to properly protect one's computer.

If you own a computer or thinking about purchasing a computer, protect your personal information and take the steps against online thieves by attending KSFCU's free *Protect Your Identity Online* workshop on Tuesday, February 23, 2010 from 6:00 p.m. – 7:30 p.m. at the KSFCU Administration building at 9500 Ming Ave, one block west of the Marketplace shopping center. Consumers can sign up by calling 833-7045 or by going online at www.ksfcu.org.
